

# EngCoding Course

**Textbook: Primary English Grade 3, Book 2, Shanghai Version**

## Unit 1. Use My Five Senses

### Lesson One

#### 1、 At the beginning of the class: warm-up/review

1. Greetings to each other.
2. Sing an English song.
3. Situation Dialogue One:  
Is everybody here?  
Yes, everybody is here. / No. ... isn't here.  
Is she/he at school? / No, she's/he's at home.
4. Situation Dialogue Two: [Show a map of Canada] What country is this? / This is Canada.  
Am I in Canada? / No, I'm not in Canada. / I'm in the United States.  
(Choose a few easy to understand sentences for practice.)
5. Let's learn some basics of coding. Coding to learn English!

#### 2、 Showcase

- Animated game: Select one of the functions shown in Scratch. Show all students the function. Case: Shoot the spacecrafts (wrong words) and UFO (correct words) to gain points. Game is over when hit by the spacecraft.
- Backdrop
- Spacecraft
- Space junk
- UFO or alien aircraft
- Score setting

- Complete coding
- Fill in emphasized words, phrases and sentences.
- Let students repeat a few times for the best result.
- Check the result after coding.

### 3、 At the end of the class

- Wrap-up
- Brief presentations from the representatives of all groups.
